Construction Industry Best Practice Guides

Clemson University's Department of Construction Science & Management is developing a series of 24 "**Construction Best Practice Guides**" based on a recently completed research project on Benchmarking. Each best practice guide describes how to implement the respective "**Construction Best Practice**" and use the results to improve company and project performance. The first series of Guides are now available from Clemson University. To place an order, complete and return this form with a check in the correct amount made payable to Clemson University to the address noted below. **The cost is \$19.95 per guide.**
